

**LEADING THROUGH
ALTERNATIVE THOUGHT IN
ANIMAL NUTRITION**

ABOUT **WES** ENTERPRISES

WES Enterprises is the manufacturer of WES Feeds; a range of superior quality animal feeds. WES Feeds is manufactured from high quality, natural raw materials and complies with the Department of Agriculture, Forestry, and Fisheries (DAFF) specifications.

For the past 29 years, WES Feeds has been producing superior quality feeds, which stands testament to the company remaining at the forefront of developing high quality, natural feeds, and continuously innovating and evolving above industry standards.

WHAT IS PREBICEL™?

PREBICEL™ is a 100% natural, plant fibre additive. This additive contains prebiotics and is produced from plant extracts, which are active fibres that have proven to be vital for good gut health and improving the gut microbiome.

HOW DOES PREBICEL™ WORK?

The active plant fibres in PREBICEL™ create an environment for healthy gut flora to flourish, thus feeding the good gut bacteria. The increase in the gut bacteria improves the ability of the animals' gut to digest and increases the efficiency of nutrient extraction from the feed.

WHY PREBIOTICS?

Prebiotics are a special form of fertiliser for the good bacteria in the gut

Prebiotics nourish existing good bacteria

Prebiotics may be helpful for several chronic disorders commonly found in commercial feedlots

WHAT ARE THE **BENEFITS** OF USING PREBICEL™?

1

The inclusion of PREBICEL™ into normal feeds improves gut health and thereby digestibility, longevity, and profitability

2

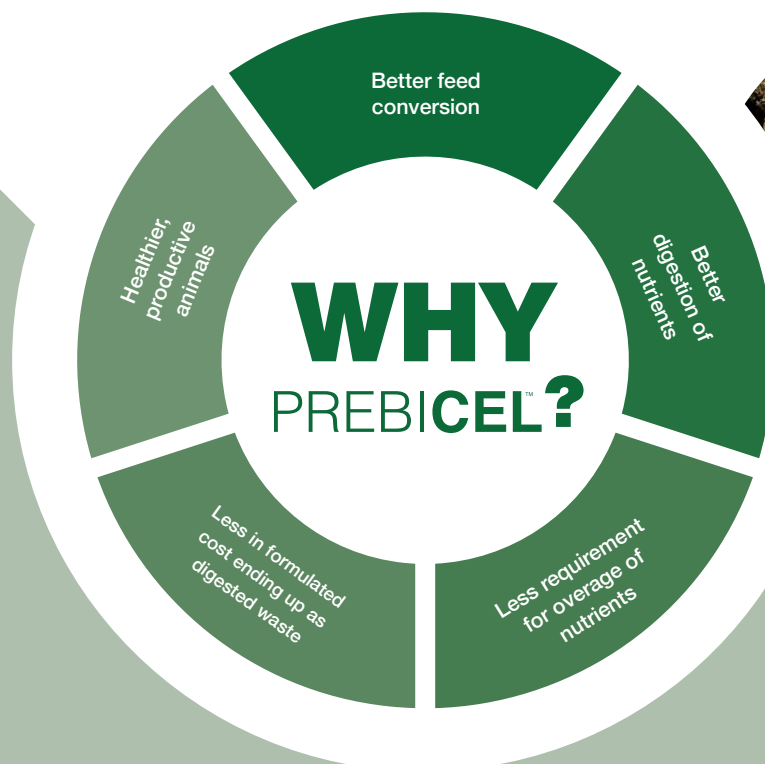

PREBICEL™ intensifies the animal's immune system to ward off challenges naturally – the way nature intended

3

PREBICEL™ promotes health and balanced energy from the inside out

4

PREBICEL™ leads to feed conversion efficiency, i.e., greater profitability

PREBICEL™ COMPOSITION

COMPOSITION		
ANALYSIS	UNITS	PREBICEL™
CRUDE FIBRE	%	62.28
LIGNIN	%	23.74
PROTEIN	%	4.47

PREBICEL™ FORM

Coarse fibre product available in 20kg units

Feed additive for swine, poultry, horses, ruminants, and wild herbivores

PREBICEL™ INCLUSION RATIO

It is suggested that PREBICEL™
be included, at the following ratios,
during the mixing of dry feed:

Swine
2 – 4%

Poultry
2%

Horses
5%

Ruminants
2 – 8%

Wild Herbivores

Ruminants: **10 – 12%**
Monogastric: **8 – 10%**

All domestic pets, as well as reptiles, under human management should have PREBICEL™ included in their diets, as specified by the dietary experts concerned.

PREBICEL™
